DEPARTMENT OF HEALTH AND HUMAN SERVICES

APPLICATION FOR A VARIANCE FROM 21 CFR 1040.11(c) FOR A

Form Approved: OMB No. 0910-0025 Expiration Date: December 31, 2006 See Page 4 for OMB Statement.

| Food and Drug Administration | LASER LI | GHT SHOW, DISP OR DEVICE | LAY, | DOCKET NUMBER | | | | | | |
|--|---|---|-----------------|--|--|--|--|--|--|--|
| NOTE: No laser light show, projection system, or device application in accordance with 21 CFR 1010,4. | ce may vary from compl | iance with 21 CFR 1040.11 | (c) in desig | n or use without the approval of this | | | | | | |
| Check all applicable boxes and type or print the requested information. Submit an original and four (4) copies. | INSTRU 3. M Di | ail your application to the Do | 5630 Fishe | gement Branch (HFA-305), Food and rs Lane, Rockville, MD 20852. | | | | | | |
| NAME OF COMPANY Mezzanotte LLC | | | | | | | | | | |
| 2. ADDRESS OF COMPANY (Include ZIP Code)(If P. | O. Box is used, include | actual street address also.) | ,,, | | | | | | | |
| 168 Broadway Street Saugus, MA 01906 | | | - | | | | | | | |
| NAME AND TITLE OF RESPONSIBLE PERSON Frank Amato | | I. TELEPHONE NO. (Include (781) 231-5111 | le area code | 5. DATE OF SUBMISSION 12/06/2004 | | | | | | |
| 6. THE APPLICANT REQUESTS THE VARIANCE TO | BE IN EFFECT FOR A | PERIOD OF 2 | YE/ | ARS FROM THE DATE OF ISSUE. (In | | | | | | |
| general, the Agency will approve a variance for only two years. If a longer period is requested, a justification must be attached as part of the application.) 7. PRODUCT DESCRIPTION AND USE | | | | | | | | | | |
| 7. PRODUCT DESCRIPTION AND USE a. LIST NAME AND/OR MODEL NUMBER(S) FOR THE LASER LIGHT SHOW(S) AND PROJECTOR(S) | | | | | | | | | | |
| Lumalaser Beamburst Emerald 20 | | .,(-),,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,, | , | | | | | | | |
| b. PRODUCT FOR WHICH A VARIANCE IS REQUES | STED | | | USED AT ANY ONE LOCATION | | | | | | |
| A laser display device | | More than 15 da | - | | | | | | | |
| A projector for a laser light show | | More than 5 but | | an 15 days | | | | | | |
| ☐ A laser light show ☐ Other (Specify) | | Less than 5 days g. TOUR IS INTENDED T | | 5 | | | | | | |
| c. PROJECTORS ARE INTENDED FOR SALE, LE | EASE, OR LOAN TO | More than 6 mor | | | | | | | | |
| OTHER LASER LIGHT SHOW PRODUCERS | ,, . | 1-6 months | 11,10 | | | | | | | |
| d. PRODUCT IS INTENDED FOR USE IN A | | Less than one m | onth | | | | | | | |
| Planetarium or other dome projection structur | re | Not applicable (/ | Vot a tour) | | | | | | | |
| ☐ Theater | | Other (Specify)_ | | | | | | | | |
| Hotel/motel ballroom or meeting room | ` | h. PRODUCT UTILIZES T | | WING LASER EFFECTS | | | | | | |
| Store displays | | Front screen pro | | | | | | | | |
| Trade show or convention | | Rear screen proj | | | | | | | | |
| ☑ Discothequé or night dub ☑ Pavilion | | Holographic disp | - | | | | | | | |
| Indoor arena | • | Multiple reflection | - 4 . | errects cludes scanning any accessible | | | | | | |
| Outdoor arena | | uncontrolled area | | cludes scanning any accessible | | | | | | |
| Museum | | Reflections from | • | nirrors or mirrored | | | | | | |
| Outdoor unenclosed area | | surfaces (Beam | - | | | | | | | |
| Other (Specify) | | Stationary irradia | ition of rotal | ting mirror balls, etc. | | | | | | |
| e. PRODUCT IS INTENDED TO BE USED | | ☐ Scanning irradial | | ng mirror balls, etc. | | | | | | |
| At only one (Fixed) location | | Fiber optic project | | | | | | | | |
| At a variety of (Tour) locations | | Fog, smoke, or o | ther scatter | ing enhancement effects | | | | | | |
| Other (Specify) | | | projecting up | ward into a flat black ceiling | | | | | | |
| 8. LASER MEDIUM (Ar, He-Ne, etc.) | LASER RADIA WAVE LEN | | | PEAK POWER (watts) | | | | | | |
| | | | 20 144 | PEAK POWER (Walls) | | | | | | |
| 0. | 32 nm | | 20 mW | | | | | | | |
| | | | 1/50 watt | | | | | | | |
| | | | | | | | | | | |

PAGE 1 OF 4 PAGES

| 11. MANNER IN WHICH IT IS PROPOSED TO DEVIATE FROM THE REQUIREMENTS OF THE APPLICABLE STANDARD | |
|--|--|
| It is proposed to deviate from the provisions of 21 CFR 1040.11(c) in that the accessible emission level would exceed the accessible emission limits specified in 21 CFR 1040.11(c). | |
| ☐ It is proposed to deviate from the provisions of 21 CFR 1040.11(c) as follows: | |
| | |
| | |
| | |
| 12. ADVANTAGES TO BE DERIVED FROM SUCH DEVIATION | |
| ✓ Laser light shows and displays are accepted popular media in entertainment and the arts. Use of power levels in excess of the limits imposed by 21 CFR 1040.11(c) is necessary to achieve the required effects in these media. | |
| Other or additional advantages (describe and explain). | |
| | |
| | |
| | |
| 13. EXPLAIN THE ALTERNATE MEANS OF RADIATION PROTECTION TO BE PROVIDED. (Check as many boxes as apply. In item 14 justify any boxes not checked, using additional sheets as necessary. State any other means of radiation protection that will be used.) | "Remarks," |
| a. All laser products, systems, shows, and projectors will be certified to comply with 21 CFR 1040.10 and the conditions of this variation be reported as required by 21 CFR 1002.10 AND 1002.11 using the reporting guides provided for such purpose. These actions we accomplished prior to any introduction into commerce. | ance and will vill be |
| b. Effects not specifically indicated in this variance application will not be performed. No other effects will be added until an amendm variance has been obtained and the required reports or supplements, as applicable, have been submitted. | ent to the |
| c. Scanning, projection, or reflection of laser and collateral radiation (Light show radiation) into audience or other accessible uncontribution will not be permitted except for diffuse reflections produced by the atmosphere, added atmospheric scattering media, and target s | rolled areas screens. |
| d. Laser radiation levels in excess of the limits of Class I will not be permitted at any point less than 3.0 meters above any surface upersons other than operators, performers, or employees are permitted to stand or 2.5 meters below or in lateral separation from a where such persons are permitted to be. Operators, performers, and employees will not be required or allowed to view radiation a limits of Class I or be exposed to radiation above the limits specified in 21 CFR 1040.11(c). | any place |
| e. Any product which relies on scanning to meet access, exposure, or product class limits will incorporate a scanning safeguard sys directly senses scanner motion and which will react fast enough to preclude exceeding the applicable limit. | tem which |
| f. All laser light shows shall be under the direct and personal control of trained, competent operator(s). The operator(s) will: | |
| (1) Be an employee of the variance holder who will be responsible for the training and the conduct of the operator; | |
| (2) Be located where all beam paths can be directly observed at all times; and | |
| (3) Immediately terminate the emission of light show radiation in the event of any unsafe condition; or, for outdoor shows, upon reby any air traffic control officials. | equest |
| g. 🗹 The maximum laser projector output power will not exceed the level required to obtain the intended effects. | |
| h. The projection system (i.e., the projector and all other components used to produce the lighting effects) will be securely mounted immobilized to prevent unintended movement or misalignment. Beam masking will be provided as an inherent part of the system prevent overfilling of screens, beam stops, targets, etc. | |
| i. 🖸 Laser projectors will not be delivered to any other party under an agreement of sale, lease, or loan unless and until the recipient of that they have a variance in effect at the time of delivery that permits them to produce laser light shows incorporating such project | |
| j. In addition to the requirements of 21 CFR 1040.10(h), the manufacturer of laser projectors/systems will provide to parties who pu or borrow the equipment, adequate users' instructions for safe installation and operation which explain the responsibility of the reindependent light show manufacturer to submit the required reports and apply for and obtain a variance from CDRH prior to introduce of any laser light shows. | cipient as an |
| k. The requirements of 21 CFR 1002.30(a)(1) and (2) will be accomplished through the use of written procedures for setup, alignmes and performance of each show. These procedures will be in sufficient detail to ensure compliance with 21 CFR 1040.10, the concentration of access to radiation areas using the procedures described in the ANSIZ136.1 standard for the safe use (American National Standards Institute, 1430 Broadway, New York, NY 10018) or any other equivalent user consensus standard applicable, state or local requirements. Laser radiation areas which can contain radiation levels above the limits specified in 21 C will be clearly identified by the posting of warning signs and/or restricting access through physical means (such as pressure switch cells, barriers, guards, etc.). These requirements apply to temporary areas (such as during set up and alignment procedures) and permanent areas. The variance holder will retain the records of these procedures and the results of all tests as required by 21 CF copy of the variance application, the approval letter, current procedures, and records relating to each particular show will be with or other responsible individual and will be made available for inspection by FDA and other responsible authorities. | ditions of this se of lasers and, where CFR 1040.11(c) ches, photo d to final or FR 1002.31.
